Product Bulletin

Wilger Boom End Flush Valves

Bulletin Revised: April 1, 2017

Bulletin Date: Feb 1, 2015

Bulletin Reference: 150201-01

Standard Features

- Compact & Lightweight Design
- Large Internal Diameter to reduce residue buildup
- Quick and Easy Installation
- Chemical and UV Resistant Materials and O-rings
- [VITON® O-rings Standard as of 2012]
- Comes with outlet plug that eliminates foreign debris from entering/damaging the valve

Three Styles of Boom End Flush Valve (BEFV) are Available

1" Quick Nut SST Style : PART #25175-V0

- Fits onto 1" Quick Nut SST thread (compatible with 1-1/4" NPT)
- Mates to #25171-00 Boom End Adapter

1" Pipe Thread Style : PART #25176-V0

- Consists of #25175-V0 BEFV, O-ring seal (#41210-V3), and Adapter (#25137-00)
- Fits onto any existing 1" Pipe Thread. Ideal for Retro-fitting an existing sprayer

TWS Style : PART #41402-V0

- Fits Case IH Patriot Sprayers that have TWS thin-walled Stainless Tubing Fittings
- Can also adapter to 1" Pipe Thread Style with #41403-V0 reducing bushing kit.

Maintenance Tip Lubrication

Through continual use (and storage over winter), the BEFV's seals can dry out, making them difficult to turn.

Squirt some liquid silicone up the outlet of the BEFV and wet the seal(s) by opening/closing the valve to improve valve function over the season. Reapply liquid silicone more often if req'd.

**Replacement Dust Cap
PART #25175-10**
Universal for all BEFV
